## FROM THE VIDEO LENDING LIBRARY

### Dottie's Fall Feature

*Rushing, Crashing, Dying: the Meth Epidemic (cc)*  
Going beyond the health risks of this increasingly popular drug,  
recovering meth addicts describe damage to family relationships,  
burns and disfigurement from lab explosions, and the problems  
they face finding work or completing school. The wide path of  
destruction cut by meth abuse is vividly portrayed...the personal  
costs to meth addicts and to society... of unfulfilled dreams,  
destroyed lives, broken families and devastated communities.  
Jr. High to Adult 26 min, 2006
